ABOUT KOLKATA

Kolkata formerly Calcutta is the capital of West Bengal which is an integral part of India. The East India Company had its rooting as a trading post in Kolkata. It was India's capital under the British Raj from 1773-1911. Kolkata's aura embraces the grand colonial architecture, art galleries and cultural festivals. It is a land of humanity as it has been the headquarters of the Missionaries of Charity, founded by Mother Teresa.

About the Conference

Developmental activities and industrialization due to rapid population explosion are two major concerns for environmental exploitation around the world. For balancing the relationship among economic development, operational and environment-compliance, effective resource utilization is the greatest challenge leading to innovative approaches to combat these problems. In view of that, technological thrust is necessary to evolve a sustainable approach for abatement of water, air, soil, noise pollution and for the contaminants which create threat even in low concentration over a limited area. With a view to disseminate on the above issues and to comprehend the research initiatives in the field of sustainable technologies, the present conference is aimed under international level.

AREAS (Related Topics but not limited to)

- Recent advancement In Engineering , Technology and management for optimization of Environmental Issues.
- Advanced water and wastewater treatment
- Application of IOT and IT in remedial measure of Environment and sustainability
- Assessment and control of air pollution
- Solid and Hazardous Waste Management
